

# New & enhanced features

## Coming to Allstate Identity Protection Pro+ in 2022

### ENHANCED FEATURE Allstate Digital Footprint<sup>SM</sup>

New features within the Allstate Digital Footprint tool beginning in Q2 will allow members to:

- See if their data was exposed in a breach
- Get privacy insights to understand how companies collect and use their data
- Request to unsubscribe from marketing emails
- Submit requests to companies to delete data

### ENHANCED FEATURE Identity Health Status

Our unique Identity Health Status, viewable within the Allstate Identity Protection portal and each participant's monthly status email, communicates a snapshot of a user's overall identity health risk level.

Our enhanced algorithm and deep analytics help us spot fraud trends quickly and alert our participants, to help them stay one step ahead. New enhancements coming in Q2 will provide personalized tips and information to help employees understand and improve their identity health.

### NEW FEATURE Stolen wallet emergency cash<sup>†</sup>

We'll reimburse participants up to \$500 for cash they had in their wallet when it was lost or stolen, after providing a police report.

### NEW EXPANDED COVERAGE Senior family coverage

We've expanded our family plans to cover participant's parents, in-laws, and grandparents over the age of 65.

### NEW FEATURE Unemployment fraud center with dedicated support

We're launching a new unemployment fraud center to ensure that victims have the tools and support they need for a quicker and easier resolution of their case, saving them time and stress.

It also reduces complexity for HR teams with additional resources for employers. Our dedicated specialists are still available 24/7 to help participants unravel unemployment fraud.

### NEW FEATURE Allstate Security Pro — Real-time personalized intelligence about digital fraud

Allstate Security Pro delivers real-time, personalized content about heightened security risks. It leverages internal data to inform participants about emerging threats, how they may affect users, and what steps users can take to better protect themselves.
