If you need emergency dental care for the palliative treatment (pain relieving, stabilizing) of a dental emergency, you are covered 24 hours a day, 7 days a week.

When emergency services are provided by a participating PPO dentist, your co-payment/coinsurance amount will be based on a negotiated fee schedule. When emergency services are provided by a non-participating dentist, you will be

Your Dental Care Plan Coverage Is Subject to the Following Rules:

Alternate treatment rule: Sometimes there are several ways to treat a dental problem, all of which provide acceptable results.

- If a charge is made for a non-eligible dental service or supply and an eligible dental service that would provide an acceptable result, then your plan will pay a benefit for the eligible dental service or supply.
- If a charge is made for an eligible dental service but another eligible dental service that would provide an acceptable result is less expensive, the benefit will be for the least expensive eligible dental service.
- You should review the differences in the cost of alternate treatment with your dental provider. Of course, you and your dental provider can still choose the more costly treatment method. You are responsible for any charges in excess of what your plan will cover.

Replacement rule: Some eligible dental services are subject to your plan's replacement rule. The replacement rule applies to replacements of, or additions to existing:

- Crowns
- Inlays
- Onlays
- Veneers
- Complete dentures
- Removable partial dentures
- Fixed partial dentures (bridges)
- Other prosthetic services

These eligible dental services are covered only when you give us proof that:

- While you were covered by the plan:
 - You had a tooth (or teeth) extracted after the existing denture or bridge was installed.
 - As a result, you need to replace or add teeth to your denture or bridge.
- The present item cannot be made serviceable, and is:

Dental Benefits Summary

- A crown installed at least 8 years before its replacement.
- An inlay, onlay, veneer, complete denture, removable partial denture, fixed partial denture (bridge), or other prosthetic item installed at least 8 years before its replacement.
- While you were covered by the plan:
 - You had a tooth (or teeth) extracted.
 - Your present denture is an immediate temporary one that replaces that tooth (or teeth).
 - A permanent denture is needed, and the temporary denture cannot be used as a permanent denture. Replacement must occur within 12 months from the date that the temporary denture was installed.

Tooth missing but not replaced rule

The first installation of complete dentures, removable partial dentures, fixed partial dentures (bridges), and other prosthetic services will be covered if:

- The dentures, bridges or other prosthetic items are needed to replace one or more natural teeth. (The extraction of a third molar tooth does not qualify.)
- The tooth that was removed was not an abutment to a removable or fixed partial denture installed during the prior 8 years

Any such appliance or fixed bridge must include the replacement of an extracted tooth or teeth.

Late entrant rule (Does not apply to Maine contract state and Maine residents): The plan does not cover services and supplies given to a person age 5 or older if that person did not enroll in the plan during one of the following:

- The first 31 days the person is eligible for this coverage or
- Any period of open enrollment agreed to by the employer and us

This does not apply to charges incurred for any of the following:

- After the person has been covered by the plan for 12 months
- As a result of injuries sustained while covered by the plan
- Diagnostic and preventive services such as exams, cleanings, fluoride, and images (excludes services related to orthodontia).
