More choices for healthier smiles

You have a network that gives you access to thousands of participating dentists. It's called **PDP Plus**. More choices mean it's easier than ever to get the dental care you need for a happy, healthy smile.

More ways to save

You can choose to go to any dentist, but staying in network is the best way to lower your costs and make the most of your dental plan. That's because participating dentists have agreed to accept fees that are usually 15%-45% less than average charges in the same community. This can mean more savings for you! Negotiated fees may even extend to non-covered services and services provided after you've reached the plan maximum.¹

With so many general dentists and specialists to choose from nationwide, you are sure to find one who meets your needs. It's also good to know they have all undergone a careful selection process.² The goal is to help you lower your costs and get easy access to quality dental care.

1 Negotiated fees for non-covered services may not apply in all states. Negotiated Fees refers to the fees that in-network dentists have agreed to accept as payment in full, subject to any copayments, deductibles, cost sharing and benefit maximums. Savings from enrolling in a dental benefits plan will depend on various factors, including the cost of the plan, how often participants visit the dentist and the cost of services rendered.

2 Certain providers may participate with MetLife through an agreement that MetLife has with a vendor. Providers available through a vendor are subject to the vendor's credentialing process and requirements, not MetLife's. If you should have any questions, contact MetLife Customer Service.
