Long Term Care Insurance

Long term care is different from traditional medical care. It's the type of care received outside of a hospital, such as in your home, an assisted living facility or a nursing home. Long term care is the type of care you may need if—due to a chronic illness—you are unable to perform, without substantial assistance from another person, two or more basic activities of daily living, such as bathing and dressing. It's also the type of care that may be needed if you require substantial supervision by another person to protect you from threats to your health and safety due a severe cognitive impairment, such as Alzheimer's disease or another mental illness.

Investing in long term care now could be the most important decision you make. Why? Because you can't tell when you'll need it. You could need it in three years or three days; it's impossible to predict how long you'll be in good health or if you'll suffer from long term effects of a car accident or debilitating disease. And, because long term care rates are based on your age at the time of purchase, coverage is more affordable for younger adults. Plus, it's available to you at low, group rates through the MITRE voluntary benefits program.

You and your eligible adult family members may apply for long term care insurance at any time by answering health questions and receiving approval

through Unum. However, if you apply during your initial 31-day new hire enrollment period, you are guaranteed acceptance for yourself—regardless of your current health—as long as you are actively at work (not absent due to illness, disability, or leave) at MITRE on your effective date of coverage.

Identity and Credit Protection

InfoArmor Coming January 2015

Identity theft is America's fastest growing crime, where one new identity is stolen every two seconds. As an employee of MITRE, you don't have to fight identity theft alone. Beginning January 1, 2015, MITRE will transition to a new identity theft vendor, InfoArmor.

InfoArmor's technology detects fraud at the source to catch misuse sooner and minimize damages. By scanning data from wireless accounts, automobile and mortgage loans, High Risk Transactions and more, your PrivacyArmor benefit can detect fraud before major damage is done. Social Media Reputation Monitoring will also monitor your Facebook, LinkedIn, Twitter, and Instagram profile to give actionable alerts of reputational damage including racist, violent, derogatory, vulgar, or inappropriate comments.

If you do become a victim of fraud, InfoArmor has specially trained experts to take the burden of identity restoration off your shoulders. This includes making a claim under our \$25,000 identity theft insurance policy to protect against associated costs, legal defense expenses, lost wages and more.

This benefit will be available to eligible MITRE employees at a monthly cost of \$7.95/month for employee only coverage or \$13.95/month for employee plus family coverage. **Enrollment in the new InfoArmor Identity Theft benefit will begin January 1, 2015.**

Protect your family with InforArmor's industry-leading PrivacyArmor benefit, to catch identity fraud sooner. Once your benefit is active, you will receive status updates and may login to your account 24/7.
