Transportation for minor children
The priority is making sure they’re safe and secure. AXA will pay for supervised transportation of eligible children back home, if necessary.

Dispatch of Physician
If the local attending legally qualified physician and AXA cannot adequately assess the member’s need for medical evacuation and transportation, AXA will coordinate, provide and dispatch a physician to assist in the assessment. AXA will provide for a benefit up to $2,500.

Pet Repatriation
If a pet traveling with you is left unattended due to your hospitalization, AXA will coordinate and provide boarding for the pet. If the injury or illness results in an evacuation or repatriation service, AXA will coordinate and provide transportation for the pet to be returned to either home, or to a boarding facility near home. AXA will provide for a benefit up to $2,500.

Insured emergency benefits
If you or covered family members experience a serious accident or illness while traveling, AXA is there in your time of need.

Emergency medical evacuation and transportation services
If medical facilities aren’t available locally, the program will provide the transportation, equipment and people needed to get you and your covered family members to the nearest medical facility for treatment or back home, if medically necessary.

Return of remains
If you or a covered family member passes away while traveling, AXA will transport the remains back home and cover the associated costs. In addition, in the event of a member’s death when traveling alone, AXA will provide an economy class round-trip ticket for one family member to accompany their remains from the location of their death to the receiving funeral home. Service includes meals and accommodations.

Transportation to join a patient
If you or a covered family member are hospitalized while traveling internationally, the program will pay for a designated family member or personal friend to be taken to the hospital so they can be by your side.

Medical assistance services
Medical referrals, appointments and hospital admissions
If you need medical assistance while you’re traveling, one call to an AXA representative and you’ll be referred to English-speaking doctors and/or hospitals, dentists and specialists. And if a hospital doesn’t recognize your medical insurance, the program can help in validating you and your covered family members’ health coverage and/or advancing the funds needed urgently.

Critical care monitoring
If you are taken to the hospital or require medical monitoring while traveling, a nurse case manager will be assigned and will stay in close communication with the attending physician and/or hospital. So, you can be confident that you or your covered family members are receiving proper care at all times.

Replacement of prescription medication
Forget or lose your prescription medication while traveling? AXA representatives will arrange for replacement medication for you and your covered family members whenever possible and legally permissible.

Replacement of medical devices
When medical devices or equipment are not available locally, we’ll make every effort to procure and arrange for delivery.
