## Who Can Request This Exclusive IEEE Member Benefit Option?

You can request coverage as an IEEE member under age 70. You may also request coverage for your lawful spouse and unmarried dependent children ages 14 days through 22 years (24 if a full-time student). In order to become insured, satisfactory evidence of insurability must be provided and the required premium must be paid.

A dependent who is a member is eligible for either member or dependent coverage, but not both. If both member and spouse are covered as members, neither may insure the other as spouse, and only one may insure any eligible children.

This coverage is available only for residents of the United States (excluding territories), Puerto Rico and Canada (excluding Quebec).

## Build A Bigger Safety Net With A Lower “Per Unit” Cost

When you request coverage amounts between \$160,000.00 and \$490,000.00, you have the advantage of a volume discount that can make your IEEE member group rates even more attractive. For benefit levels of \$500,000.00 or more, a larger volume discount is used.

## Costs Held Down With Premium Credit

Insurance is the opportunity to receive a premium credit to reduce the total cost of your insurance. **A 10 percent premium credit is currently in effect.** Although not promised or guaranteed, premium credits have been granted every year since 1963.

## Premiums Waived If You’re Totally Disabled

If you become totally disabled before age 60 and remain so for nine months or longer, your insurance will continue as long as your total disability continues—for both you and your covered family members—without additional premium contributions until coverage terminates when you reach age 100. The amount continued will be based on the options under which you and your dependents were insured at the time your disability began, subject to the scheduled decreases shown in “Amounts of Insurance At Member Ages 69 Through 99.” You may be asked to provide evidence of your continued total disability from time to time.

## Chronic Illness Benefit available to help protect insureds!

This rider is designed to help protect IEEE members from the financial hardships of a Chronic Illness and can help mitigate the costs of providing necessary care. Once you qualify, your benefits will be paid directly to you so you can use them any way you need—for medical bills, daily living expenses, etc.! Your beneficiaries will then receive the remainder of your life benefit upon your death.

The Chronic Illness Rider (CIR) benefit is available to members and spouses under age 65 residing in the U.S. (excluding ID, LA, MN, OH, UT and WA) and is subject to medical underwriting.

The CIR allows insureds under age 80 to accelerate 50% of the amount of life insurance that would be in effect one year after the date requested.

A “Chronic Illness” is defined as disease, illness or condition that is persistent and expected to last for a prolonged period of time and results in the inability to permanently perform at least 2 out of 6 activities of daily living or results in permanent cognitive impairment.

To collect payment under this new benefit rider the chronic illness must occur after coverage is effective, lasts for a continuous period of 90 days and one for which a licensed health care practitioner other than the insured or a family member of the insured, certifies that the insured is permanently unable to perform 2 out of 6 activities of daily living (eating, bathing, dressing, toileting, transferring, or continence) or has a permanent severe cognitive impairment requiring substantial supervision.

Once you qualify for CIR you will be paid 12.5% of the amount of your life insurance in force one year after the date of the request for a maximum of 4 years.

The death benefit will be reduced by the amount of accelerated benefits paid.

This coverage also provides a terminal illness acceleration provision which allows you to receive 50% of your life insurance amount, that would be effective one year after the date requested. Provided you are diagnosed with a terminal illness and a life expectancy of 12 months or less.

Once you add the CIR you will have access to both benefits. Please note: the total acceleration cannot exceed 75% of your life insurance. If terminal illness acceleration is requested first the CIR will terminate. The CIR will also terminate on the earliest of the date full payment is made or age 80. Receipt of the acceleration benefit may be taxable so please consult with your tax advisor. Coverage, including the CIR is subject to medical underwriting.

**\* This life insurance option benefit accelerates some of the death benefit in the event that you are certified with a chronic illness.**

**IMPORTANT:** This rider is not intended to be a federally tax-qualified long-term care insurance contract under Internal Revenue Code (IRC) Section 7702B. Therefore, the premiums payable for this rider do not qualify as long-term care insurance premiums and are not deductible from gross income for federal income tax purposes. This rider, however, is subject to the federal per diem limits set forth in IRC Section 7702B. Under this rider, New York Life will not pay claimants more than the federal per diem limits. Assuming the amount you receive in the aggregate from all applicable policies does not exceed the federal per diem limits set forth in IRC Section 7702B, the benefits provided by the Chronic Illness Rider are intended to be excludable from federal gross income under Section 101 (g) of the IRC.

Receipt of an accelerated death benefit may affect eligibility for Medicaid or other government benefits or entitlements and may have income tax consequences. Accelerating benefits before applying for these programs, or while you are receiving government benefits, may affect your initial or continued eligibility. Clients can contact the appropriate social service agency (e.g., the Medicaid Unit of your local Department of Public Welfare or the Social Security Administration Office) for more information.

## 30-Day Free Look

When your coverage is approved, you will be sent a Certificate of Insurance. Look it over for a full 30 days.

If you're not completely satisfied with the terms of your Certificate, you may return it without claim within those 30 days. Your coverage will be invalidated and you will receive a full refund of any premium paid—no questions asked!

## No Exclusions

Benefits will be paid in the event of death ... anywhere in the world ... regardless of cause. The validity of any amount of your insurance that has been in force for two years during your lifetime will not be contested except for insurance eligibility provisions or nonpayment of premium contributions.

## Your Choice of Beneficiary

You may select any person, persons, trust or other legal entity as your beneficiary. If, at the time of your death, there are no surviving beneficiaries, benefits will be paid to the executor or administrator of your estate, or at the option of New York Life, to the surviving relatives in the following order of survival: spouse, children equally; parents equally; or brothers and sisters equally. You are the automatic beneficiary for dependent insurance as described in the Certificate of Insurance. If you want to name another beneficiary for spouse or child insurance, please contact the administrator.

## An Important Option If You're Facing A Terminal Illness

The Living Benefit or "Accelerated Death Benefit" provides IEEE members with the option to have a portion of a terminally ill insured's life insurance benefit paid while he/she is still alive.

Use the money paid under this feature however you see fit. To help pay medical bills. To help preserve your savings and assets. To help maintain your quality of life.

To qualify for this benefit, a person must be insured and diagnosed as having a life expectancy of 12 months or less. Proof of terminal illness will consist of a statement from a doctor and any other medical information New York Life Insurance Company deems necessary to confirm the person's status.

You can request payment equal to 50 percent of a qualified terminally ill person's inforce coverage. The request must be made at least 12 months prior to that person's scheduled coverage termination age, and the amount payable after the insured's death will be reduced by this payment. (Premium contributions will not be reduced.) If a scheduled reduction will occur within one year of the date the advance payment will be made, the benefit payable will be 50% of the reduced coverage. (See "Amounts of Insurance At Member Ages 69-99.") Note: An insured will be eligible for only one terminal illness benefit during his/her lifetime.

Please note that receipt of this benefit may affect your eligibility for public assistance programs and may be taxable. You may wish to consult the appropriate social services agency and a qualified tax advisor about how this may affect your personal situation.

\*These rates include the 10% premium credit currently in effect. Billed rates may differ slightly due to rounding.

\*\*The amount of life insurance for you and your spouse is based on your age at your last birthday and decreases on the premium due date coinciding with or immediately after you enter a new age category. After age 69, coverage decreases for each \$10,000.00. Premiums remain the same. See chart below. Children's insurance amounts do not reduce. Contact the Administrator for renewal rates at ages 70-99.

### How to Calculate Your Semiannual Cost\*

Use the correct column to find the current semiannual insurance cost for member coverage in excess of \$10,000. Multiply the amount shown for the \$10,000 member option by the number of \$10,000 multiples desired (e.g., for \$200,000 at age 33 for a non-smoker with the 10% Premium Credit, multiply \$1.57 by 20 = \$31.40)

To find the current semiannual insurance cost for spouse coverage in excess of \$10,000, multiply the amount shown for the \$10,000 spouse option by the number of \$10,000 multiples desired (e.g., for \$100,000 at member's age 33 for a non-smoker spouse with the 10% Premium Credit, multiply \$1.19 by 10 = \$11.90) Add the cost for spouse (and children's) coverage to member (and spouse) coverage for your total semiannual premium cost.

If you wish to request child coverage, add \$3.00 (\$2.70 with the 10% Premium Credit, described above) to cover all eligible children for \$10,000 each. Add the cost of child coverage to member (and spouse) coverage for your total semiannual premium cost.

\*If you select the convenient monthly Electronic Funds Transfer (EFT) option, your monthly cost will be approximately one-sixth of the semiannual cost shown.

(Note: the amount billed may differ slightly due to rounding.)

However, your rates may change only if they are changed for all others in the same class of insureds under this group policy. For example, a class of insureds is a group of people all with the same issue age and tobacco/nicotine use. Benefit option amounts are not guaranteed and are subject to change by agreement between New York Life Insurance Company and the Trustee of the IEEE Life Insurance.

Chronic illness coverage terminates at member age 80. The premium contributions shown reflect the current rate and benefit structure.

**How to Calculate Your Semiannual Cost of Chronic Illness Rider Option<sup>1</sup>**

If you have \$300,000 term life insurance, multiply the unit corresponding to your age by 30.<sup>2</sup>

So if you are age 40 and a nonsmoker:

**Without Premium Credit:**

\$300,000 Term Life Insurance Benefit divided by \$10,000 option = 30 unit options

30 unit options multiplied by \$.26 per unit option = \$7.80

**With 10% Premium Credit:**

\$300,000 Term Life Insurance Benefit divided by \$10,000 option = 30 unit options

30 unit options multiplied by \$.23 per unit option = \$6.90

<sup>1</sup>If you select the convenient monthly Electronic Funds Transfer (EFT) option, your monthly cost will be approximately one-sixth of the semiannual cost shown. (Note: the amount billed may differ slightly due to rounding.)

<sup>2</sup>Maximum acceleration under the Chronic Illness Rider is 50% of Life Insurance Coverage.

The premium contributions shown reflect the current rate and benefit structure. Premium contributions may be changed by New York Life Insurance Company on any premium due date (but not more than once in any 12-month period) and any date on which benefits are changed. However, your rates may change only if they are changed for all others in the same class of insureds under this group policy. For example, a class of insureds is a group of people all with the same issue age and tobacco/nicotine use. Benefit option amounts are not guaranteed and are subject to change by agreement between New York Life Insurance Company and the Trustee of the IEEE Life Insurance.

\*Rates shown are semiannual and may be slightly off due to rounding.

\*\*These rates include the 10% premium credit currently in effect.

\*\*\*After age 65, coverage decreases for each \$10,000 member option value of insurance. Full premiums continue to be payable.

Chronic illness coverage terminates at member age 80. The premium contributions shown reflect the current rate and benefit structure.

### How to Calculate Your Semiannual Cost of Chronic Illness Rider Option<sup>1</sup>

If you have \$300,000 term life insurance, multiply the unit corresponding to your age by 30.<sup>2</sup>

So if you are age 40 and a nonsmoker:

#### Without Premium Credit:

\$300,000 Term Life Insurance Benefit divided by \$10,000 option = 30 unit options

30 unit options multiplied by \$.38 per unit option = \$11.40

#### With 10% Premium Credit:

\$300,000 Term Life Insurance Benefit divided by \$10,000 option = 30 unit options

30 unit options multiplied by \$.34 per unit option = \$10.20

<sup>1</sup>If you select the convenient monthly Electronic Funds Transfer (EFT) option, your monthly cost will be approximately one-sixth of the semiannual cost shown. (Note: the amount billed may differ slightly due to rounding.)

<sup>2</sup>Maximum acceleration under the Chronic Illness Rider is 50% of Life Insurance Coverage.

## Renewal Payments and Claims

Once you are covered, you will have a 31-day grace period for your payment of renewal premium contribution. When you want to submit a claim, call or write the Administrator for claim forms.

## Group Conversion Privilege

The coverage provides conversion privileges under certain circumstances of involuntary termination as described in the Certificate of Insurance.

## Effective Date

You and your dependents will become insured on the date specified by New York Life Insurance Company provided the initial premium contribution is paid when due, satisfactory evidence of insurability has been submitted, and you and your dependents are alive on that date. Coverage for any dependent who is hospital confined at home, in a hospital or other medical institution or incapacitated so as to be unable to perform his or her normal activities on the date coverage would otherwise become effective will not become effective until the date her or she is no longer so confined or incapacitated, provided you are insured on that day and the dependent is still eligible for insurance. Payment of a premium contribution for insurance does not mean there is any coverage in force before the effective date as specified by New York Life Insurance Company.

## When Coverage Ends

Coverage can stay in force until you or your spouse reach age 100, and for your insured dependents as long as they remain otherwise eligible, provided you remain a member in good standing of IEEE, premium payments are paid when due, (Note: The Office of Foreign Assets Control (OFAC), an agency of the U.S. Department of Treasury, enforces economic and trade sanctions based on U.S. foreign policy against targeted foreign countries and specifically designated individuals and organizations. New York Life may not be able to accept premium from an OFAC-targeted country or provide insurance services to an individual who is located in a targeted country.) the group policy is not terminated or modified by the policyholder to end insurance for the group of insureds to which you belong, or no request is made by insured to terminate insurance. In addition, dependent coverage will terminate when the dependent spouse or child ceases to be an eligible dependent. Upon your death, coverage for your insured dependents may continue as described in the Certificate of Insurance.

**Before you send in your application:** Your membership must be activated. Make sure you have provided complete and accurate information, which will help avoid delays in securing missing information. Misstatements or failures to report information may be used as the basis for invalidating your insurance. If a physical exam, EKG, blood test or other medical information is required an on dependent professional paramedic will contact you to arrange for these simple tests at your convenience. The exam and blood test will be paid for by the Policy.

If your State residence mandates recognition of a Domestic Partner as an eligible spouse contact the Administrator for a Declaration of Domestic partnership form or go to [IEEEinsurance.com](http://IEEEinsurance.com) to download the form.
