Life Insurance Features

Supplemental Term Life helps you prepare for your future—as well as for circumstances that may happen between now and then.

Automatic Coverage Increase: Your coverage will automatically increase as your basic annual earnings increase.

If your basic annual earnings in effect as of September 1 makes you eligible for additional coverage, your coverage will be increased on January 1 of the following year.

Accelerated Death Benefit: An advance payment of your life insurance benefits is payable if you are diagnosed with a terminal illness and a life expectancy of 6 months or less.

You can request payment up to 50 percent of your coverage amount up to \$250,000.

Advance payment permanently reduces the death benefit.

You continue to pay premiums for the remaining coverage.

Accidental Death & Dismemberment: This is an optional feature that you can purchase with the life insurance coverage. This feature pays a benefit in the same amount of your life insurance benefits if you die or suffer injuries as the result of a covered accident.

This feature is available to both associates and spouses.

Associate and Family Portability Privilege: Once enrolled, you can remain protected under this program as long as you want throughout your career. If you change jobs, you and your family can take your protection with you as long as the group program remains in effect. You have the option to port the group policy to keep the coverage you already have in force or you can convert your coverage to an individual life insurance policy. Ported coverage can be continued up to age 80. If you would like to convert your policy to an individual policy, contact Mercer Voluntary Benefits within 30 days of your employment termination date.

Children's Conversion to an Individual Policy: When your child reaches the maximum age (age 26) or is no longer an eligible dependent, he or she can convert the policy to an individual policy. The request for coverage must be made in writing to Mercer Voluntary Benefits within 31 days of the date the child is no longer an eligible dependent.

Non-Smoker Rates: Reduced rates are available if the insured has not smoked or used any form of tobacco for 12 consecutive months prior to the date you complete the enrollment form. If the insured qualifies at a later date, you may change the rate to non-smoker.
